LO: To write facts about an Owl.

On Wednesday we read and completed some facts on the animals from the book 'Secrets of Winter.'

Today we are going to be writing about our animals using these facts.

As we have been looking at the mouse as a class I will continue to use this as my example.

Please look at the English video to show you how to complete the activities suitable for your child's group.

Some of you will complete missing gaps and some of you will be writing the whole fact. Please use the activity for your group as it is tailored to meet your child's needs along with the sounds that they know. You do not need to print the activity as it would be nice if your child draws their own picture of the animal.

I will need to title my work - Mouse facts.

I either write in the missing word

it is \_\_\_\_\_

or I write the fact

it eats nuts      it has a long tail
