LO: To read and complete the facts on the animals

On Monday we made mind maps on different animals.

As a class we made a mind map and I made a class one with all your ideas which I have shared on class dojo.

Today we are going to read facts about the animals. Please look at the short video explaining how to do this - I am using a mouse - you will use the group activity appropriate for your child which has been made to suit their needs and the sounds they know.

I have written a caption and you have to find the missing word.

it can eat _____

nuts logs webs
