

## Design a label for your beans.

Before you draw or paint your plant label, try out a few designs first - experiment with your design and colours which you use, think about what you could use for your labels and what materials you may like to use.

Pick your favourite design and recreate on your chosen item - lollipop, wood, tin lid, pebble, cork, wooden utensil etc.

**You can use anything you like to make a plant marker/label. Ask your adults what they have - it doesn't have to be done on the lollipop provided that's for those who may not access to materials.**

Be creative and imaginative! Most importantly have fun! If you are growing other plants make labels for those ones too.

Here a few designs to give you some inspiration! :-)
