

UW - Tuesday 18th May 2021

Castles - to learn about castle features and label a castle.

UW - Looks closely at similarities, differences and change (W)

We have been looking at Castles and today we are going to learn about the features of castles.

Look at the information about castles on the class webpage. Using this information to help you, or by looking at the diagram below draw and label your own castle diagram - you may want an adult to help you with the writing but you can tell them the parts that you wish to label.
