Have a think

Mo, Whitney and Ron got letters in the mail.

Mo had 12 letters.

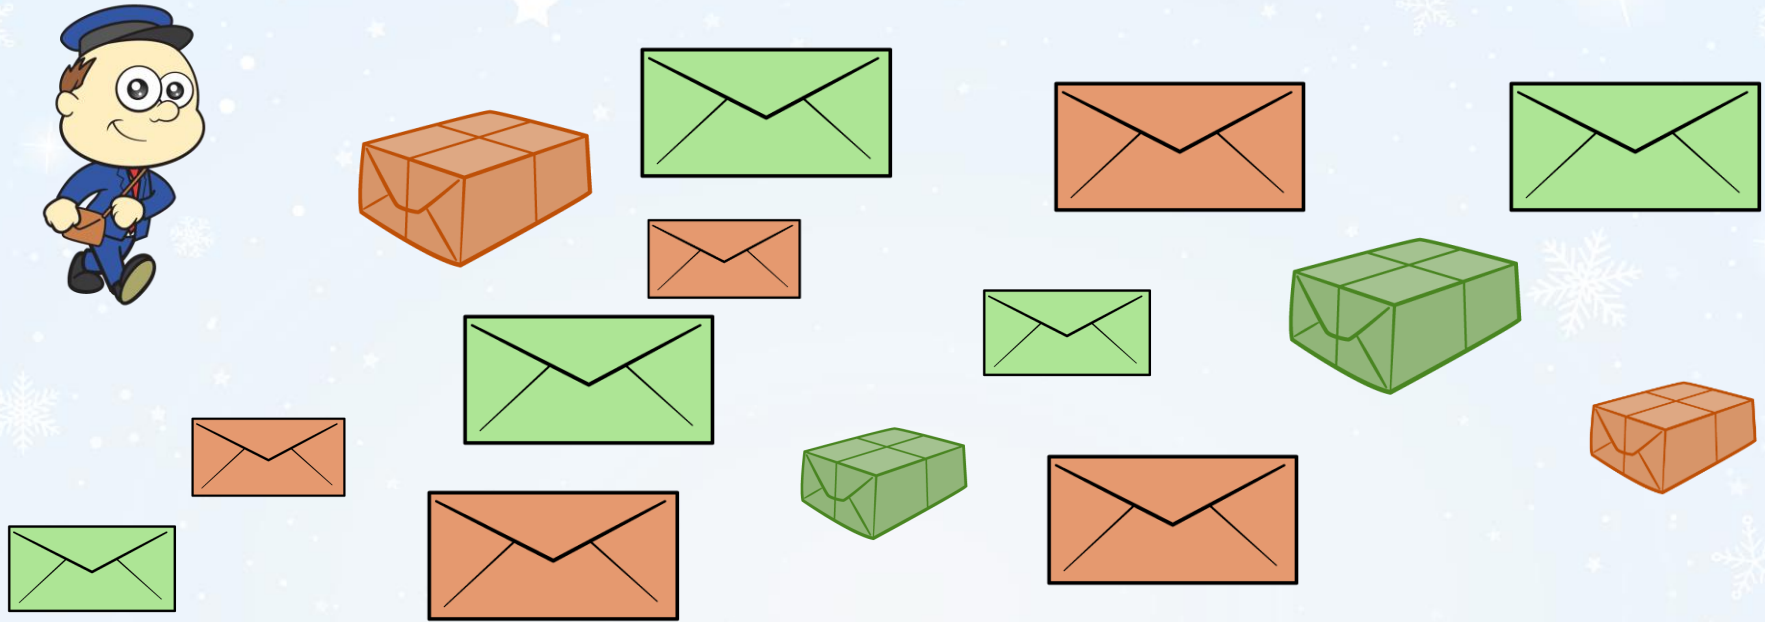

Whitney had 14 letters.

Ron had 11 letters.

Can you put the number of letters in order  
from smallest to greatest?

11, 12, 14

How many pieces of post arrived? **14**

How could you sort them?

**letters and parcels**

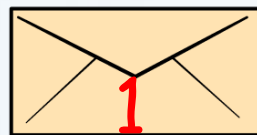

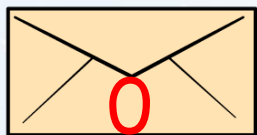

**size**

**colour**

Try this!

You can use envelopes or pieces of paper.

Write the numbers 0 - 20 on envelopes.

Mix them up and flip them over to hide the numbers.

Pick 3 and put them in order from greatest to smallest.

# Post

Jack and Tiny played a game.

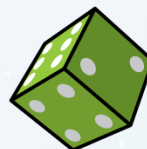

Who received the most letters in 3 days?

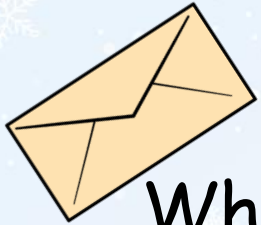

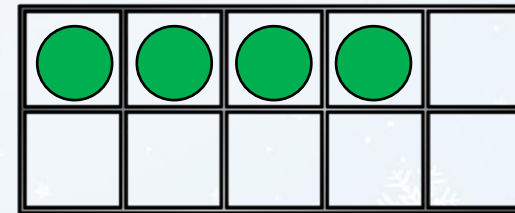

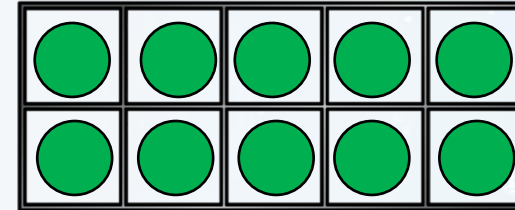

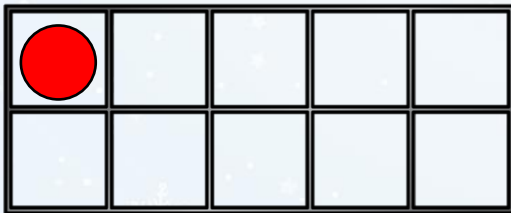

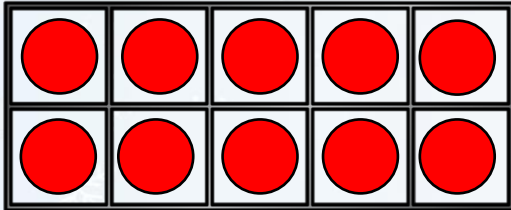

They need a dice and 2 ten frames each.
