

Flashback 4

Year 2 | Week 1 | Day 4

1) Divide 12 by 2

2) One triangle has 3 sides.
How many sides do 5 triangles have?

3) Use $<$, $>$ or $=$ to compare.

$$3 \times 2 \quad \bigcirc \quad 2 \times 3$$

4) Calculate $75 - 10$

Flashback 4

Year 2 | Week 1 | Day 4

1) Divide 12 by 2 **6**

2) One triangle has 3 sides.
How many sides do 5 triangles have? **15 sides**

3) Use $<$, $>$ or $=$ to compare.

$$3 \times 2 \quad (=) \quad 2 \times 3$$

4) Calculate $75 - 10$ **65**
