

Computing lesson 1

LO: Algorithms

Follow the link to bbc bitesize page on algorithms.

<https://www.bbc.co.uk/bitesize/topics/z3tbwmn/articles/z3whpv4>

Read through the information.

Activities:

1. Find as many algorithms in your home as you can (examples include recipes/instructions)
2. Create an algorithm for someone to follow. This might be some directions to go from the kitchen to the living room or the steps needed to build a new lego model.
Record your steps using words, images or audio (voice).
3. Once you've created your algorithm, check it works. If you find any mistakes - debug it!

Have fun!
