What do you think the main focus of the story is? Talk to your adult helper about the messages in the story.

I think the main message is about friendship and accepting the differences in each other. Not judging someone or something by how it looks but by what is inside us all.

Therefore, your task is to create a 'Good friend guide'.

Discuss with your adult what a good friend might do or say?

Use the template provided or draw your own in your book, create a mind map or word shower with all the ingredients of a good friend.
