WALT: Wind in the Willows – Human characteristics

The characters in the books are given very human (anthropomorphic) characteristics. Toad is adventurous and mischievous, Mole is cautious and shy, Rat is confident and popular and Badger is grumpy but kind-hearted.

Yesterday you chose an animal that lives in the woods, today I would like you to give the animal human characteristics. What would their personality be like? What human characteristics might they have? Are they wearing any clothes?

Create a woodland collage using twigs and leaves to bring your animal character to life and add key words and phrases to your picture.
