

WALT: What does Church mean to Christians?

From pupil's own experiences what do they think a church is like?

Introduce the idea that the church is made up of **people** not the buildings, it is a community who have similar ideas and faith. This group cares and looks after each other like a family. They are all different but are connected through God.

In this short film clip children talk about what Church is to them. The people are what makes the body of the church. It also touches on the diversity within the Christian Church.

Create an artistic representation of a church, made of people. Here are some ideas to help you with your own design:

You may be as creative as you like. You could cut out people from a magazine and create a collage, paint your picture or use Lego people. I'm looking forward to seeing your ideas.
