

The Iron Man by Ted Hughes

Monday 11th January 2021 LO: Instructions

Can you help the engineers to fit the Iron Man back together by putting these instructions in time order? Write them into your remote learning book to practise your presentation and handwriting. How will you lay out your learning?

Finally, place the shiny, round eyes into the eye sockets.

Firstly, lay out all the body parts carefully on the beach and check there is nothing missing.

After that, fit the great iron legs on to the lower part of the torso, checking the feet are also attached.

How to Assemble an Iron Man

Next, fit the two iron hands onto the ends of the arms, and attach the arms to the body at the shoulder joints.

Secondly, fix the great iron head to the torso.

When the head, torso, legs and arms are back together and moving smoothly, insert the one iron ear.

Extension – Can you edit and improve one of the instructions?
