

**Wednesday 13.01.21 Maths Fluency**

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

1)  $\frac{1}{3}$  of 48 = (M/W) 48 divided into 3 groups and you have 1 of them

--	--	--

2)  $56 = ? \times 8$  (M)

3)  $? = 4536 - 1143$  (W)

4)  $217 - ? = 49$  (W)

5)  $52 \div 4 =$  (W/M)
