

Friday 15.01.21 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

- 1) $1/5$ of 45 = (M/W) 45 divided between 5 groups and you have 1 of them

- 2) $3/5$ of 45 = (M/W) 45 divided between 5 groups and you have 3 of them

- 3) $999 + 1 =$ $999 + 10 =$ $999 + 100 =$

- 4) $999 - 1 =$ $999 - 10 =$ $999 - 100 =$

- 5) $459 \div 6 =$ (W) answer with the remainder as a fraction in its simplest form
