Friday 2nd June

WALT: Write a shape poem connected to the sea

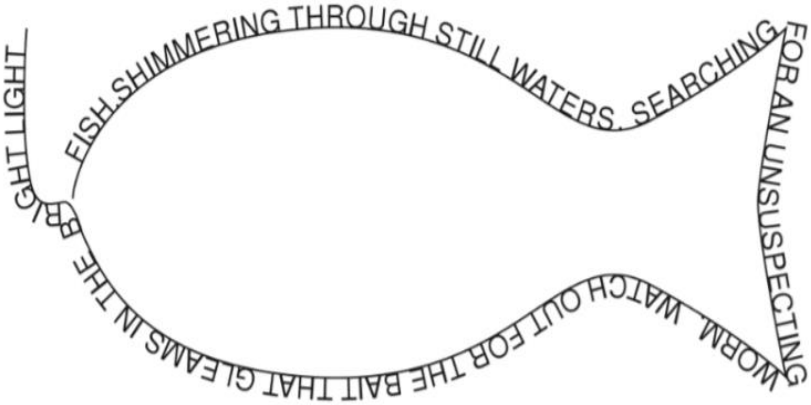
Shape poems: *A descriptive poem that fits inside a drawn shape of an object/animal or where the words are written so as to form its shape*

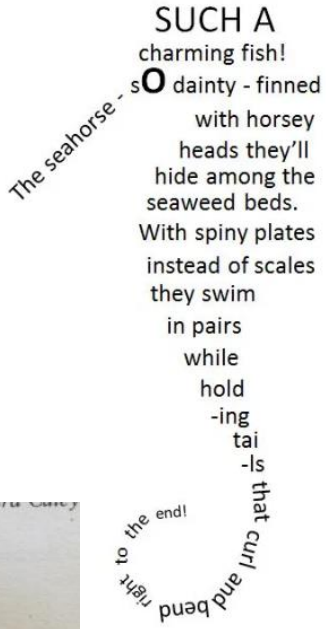
Think about:

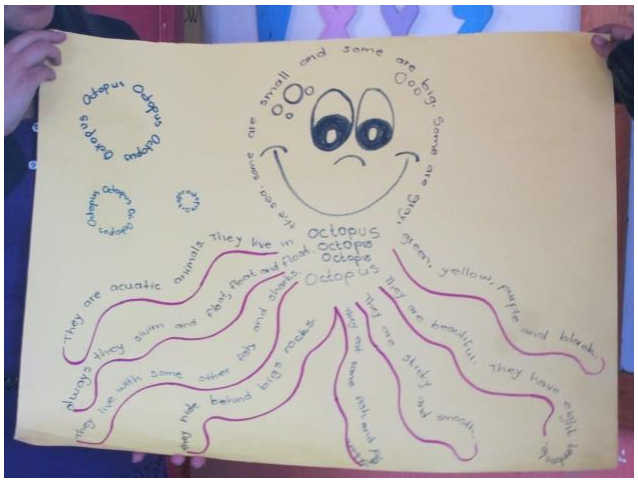
- What it looks like
- the sounds and movements that the sea or creature makes
- where it lives
- What does it hunt / get hunted by?

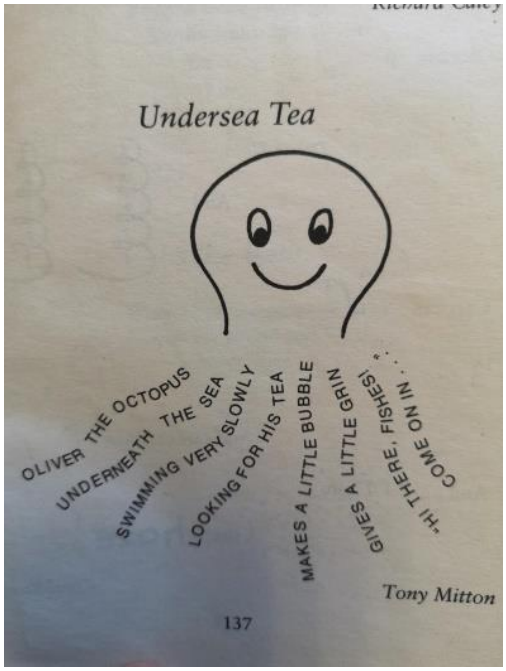
Remember to think carefully about your vocabulary choices – don't always choose the first word that comes to mind.
You can also try including similes and metaphors.

Here's a couple of examples:









Tip: draw a simple outline of your idea first and then you can write on top of the line to create the shape. You can also draw inside the lines to create a shape poem.
