SAMPLE DESCRIPTIVE PARAGRAPH

The grizzly bear's eyes are shut, as if he himself cannot bear to hear the power of his own roar. His nose waits patiently on top of his snout for the roar to end, but his mouth is fully engulfed in the turmoil of his cry. His tongue is black like the gates of hell, while his teeth are stained red, maybe from blood. Surrounding his jaw are four great fangs; they are the guardians, the sentinels of this powerful beast. By contrast, the bear has a coat of fluffy, flowing fur. It travels outwards in all directions up past its ears, which sit peacefully upon his head, like a teddy bear's. Overall, the grizzly is many different things at the same time; cuddly and ferocious, dangerous and beautiful. Go see one for yourself if you dare!!
