

Tuesday 23.06.20 Maths Fluency

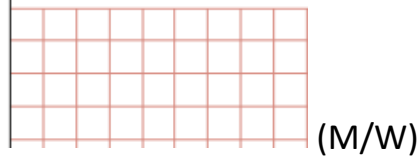

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

1 $93,214 - \boxed{} = 7,859$

$93214 - 7859 =$

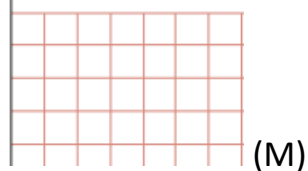

2 $8 \times 3 \times 3 =$

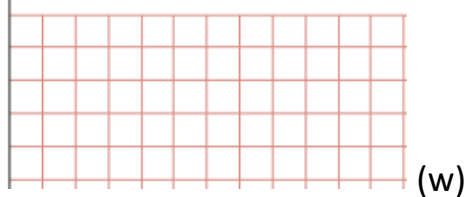

3 $90 - 78 =$

4 $\frac{6}{7} + \frac{2}{7} =$

5 $\boxed{} \div 7 = 529$

$7 \times 529 =$
