

Wednesday 24.06.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

1 $\frac{3}{5} + \frac{4}{5} + \frac{2}{5} =$

(M)

2 $3 \times 7 \times 2 =$

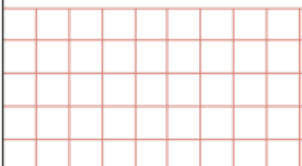

(M)

3 $857 + 14,894 =$

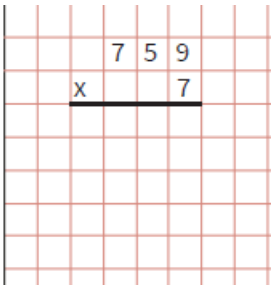

(W)

4 $600 + 500 + 100 =$

(M)

5

(W)
