

## Thursday 25.06.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

### Answers

1  $\frac{3}{5}$  of 25 =

(M)

25 divided by 5 = 5 x 3 = 15

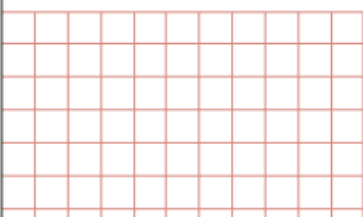

2  $78 + 50 =$

(M)

128

3  $\square \div 8 = 496$

(W)

$496 \times 8 = 3968$

4  $5 \times 6 \times 5 =$

(M)

150

5  $600 - 299 =$

(M/W)

$299 + 1 = 300$ .  $600 - 300 = 300$  then add the 1 back on = 301
