

Friday 26.06.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

Answers

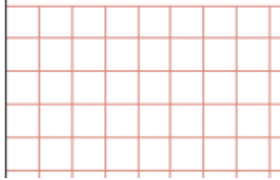

1 $3 \times 0 \times 7 =$

(M)

0

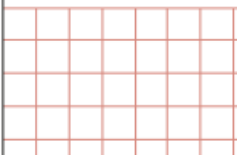

2 $294 \times 6 =$

(W)

1,764

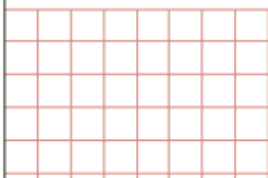

3 $80 - 48 =$

(M)

32

4 $\frac{5}{6}$ of 42 =

(M)

42 divide by 6 = 7. $7 \times 5 = 35$

5 $\boxed{} - 7,876 = 7,997$

(W)

$7876 + 7997 = 15,873$
