

Monday 04.05.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

1 $6 \times 12 =$

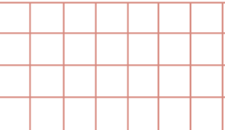

(M)

2 $6,483 + 7,835 =$

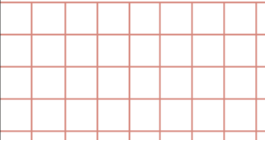

(W)

3 $61 + 30 =$

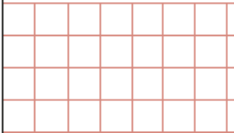

(M)

4 $83,328 - 76,397 =$

(W)

5 $657 \div 10 =$

(M)
