

Monday 04.05.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

Answers

1 $6 \times 12 =$

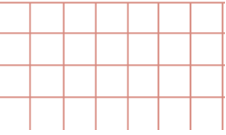

(M) **72**

2 $6,483 + 7,835 =$

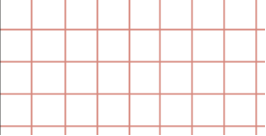

(W) **14,318**

3 $61 + 30 =$

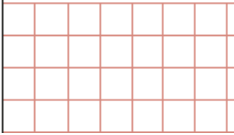

(M) **91**

4 $83,328 - 76,397 =$

(W) **6,931**

5 $657 \div 10 =$

(M) **65.7**
