

## Tuesday 05.05.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

---

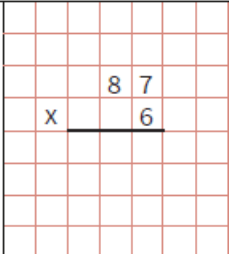

1      $60 \times 30 =$

(M)

---

2

(W/M)

---

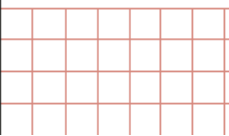

3      $67 + 40 =$

(M)

---

4      $450 \div 100 =$

(W)

---

5      $11,832 + 19,873 =$

(W)
