

## Wednesday 06.05.20 Maths Fluency

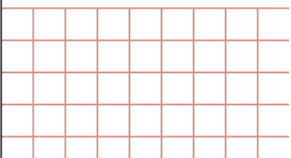

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

---

1	$\frac{2}{5}$ of 60 =
	

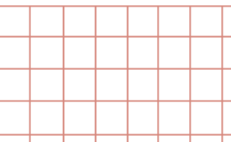

(M)

---

2	$32,764 - 21,863 =$
	

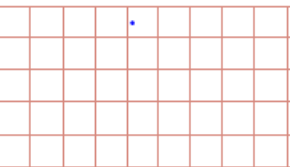

(W)

---

3	$56 \div 10 =$
	

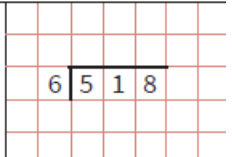

(M)

---

4	$80 - 28 =$
	

(M)

---

5	
---	---

(M)
