

Wednesday 06.05.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

Answers

1	$\frac{2}{5}$ of 60 =
	

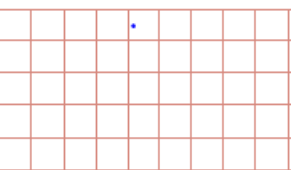

(M) 24

2	$32,764 - 21,863 =$
	

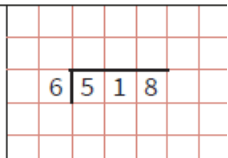

(W) 10,901

3	$56 \div 10 =$
	

(M) 5.6

4	$80 - 28 =$
	

(M) 52

5	
---	---

(M) 86 r 2 or $86 \frac{2}{6}$ (simplified= $86 \frac{1}{3}$) or 86.33
