

Thursday 23.04.20 Maths Fluency

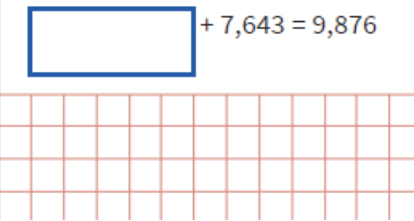

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

1 $30 \times 70 =$

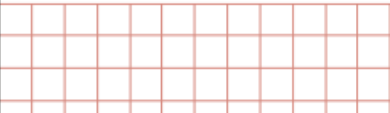

(M/W)

2 + 7,643 = 9,876

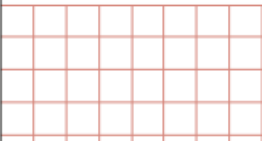

(W)

3 $900 +$ $= 1,700$

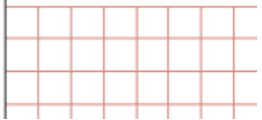

(M)

4 $731 \div 8 =$

(W)

5 $678 + 400 =$

(M/W)
