

## Friday 24.04.20 Maths Fluency

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

1	$70 \times 7 =$
	

(M)

2	$6,657 \times 8 =$
	

(W)

3	$\frac{5}{6}$ of 66 =
	

(M)

4	$60 \times 50 =$
	

(M)

5	$607 \div 8 =$
	

(W)
