

### Wednesday 06.01.21 Maths Fluency Answers

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

- 1)  $8 \times 7 =$       **56**      (M)
- 2)  $217 \div 7 =$       **31**      (W)
- 3)  $40 \times 7 =$       **280**      (M)
- 4)  $67 \times 7 =$       **469**      (M / W)
- 5)  $\frac{1}{3}$  of 42 =      **14**      (M)
- 6)  $91 \div 7 =$       **13**      (W)
- 7)  $700 \times 6 =$       **4200**      (M)
- 8)  $26 \times 7 =$       **182**      (M / W)
