

## Monday 25.01.21 Maths Fluency Answers

Those questions with (M) beside them should be tried mentally. Those with (W) are normally more efficient using a written method.

Answers:

---

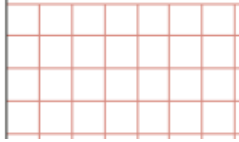

1      $6 \times 12 =$

(M)     **72**

---

2      $6,483 + 7,835 =$

(W)     **14,318**

---

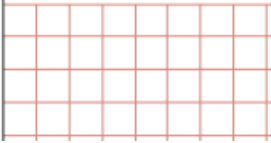

3      $61 + 30 =$

(M)     **91**

---

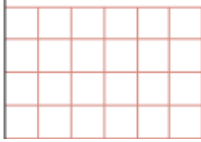

4      $83,328 - 76,397 =$

(M)     **6,931**

---

5      $657 \div 10 =$

(W)     **65.7**
