

Thor and Loki

Read their story on pages 20-21.

Fact file: Thor

One of the most famous and powerful of all the gods, Thor travelled through the sky in his chariot, hurling thunderbolts and striking fear into his enemies. He used his strength and skill to protect Asgard from giants and any other creatures who posed a threat.

Thor's main weapon was a hammer called Mjollnir. He also had a pair of iron gloves that helped him handle Mjollnir, and a magical belt that doubled his strength.

All in the genes:
With a father like Odin and a giant for a mother, it's no wonder I ended up with more muscles than anyone else!

Thor in his own words:

The perks of being a god:
No one has ever dared tease me about being ginger.

Don't knock it till you've tried it:
Some people use horses to pull their chariots, but I prefer goats.

Coolest kit:
Not only is my hammer, Mjollnir, incredibly powerful, but whenever I throw it, it flies back into my hand, ready for some more quality bashing.
