“Sharing life in all its fullness.” John 10:10

Values : The value we are focussing on this half term is Respect.

Dear Parent/Carers,

It was fabulous to celebrate all of the children who took part in the Library Summer Reading Challenge. Over the last four years there has been a greater uptake from pupils at our school compared to other local schools. This is a brilliant achievement and again demonstrates how reading is a strength in our school. We continue to give reading a very high priority and promote it in a range of ways as we know it is vital to enable children to access learning across the curriculum.

Home Learning

A separate letter was sent out on Monday sharing our approach for 'Home Learning' for the following year. We have made some changes so please take time to read this as the partnership between home and school is crucial in supporting your child/children to progress. Daily reading and daily practising of number skills should be the number one priority as this will make the greatest difference. **Home Learning is set on a Friday and needs to be returned by Wednesday.**

Maths Day - Wednesday 23rd September

On Wednesday 23rd September we will be holding our annual maths day. Children will take part in a trail and maths learning linked to Exploring and Noticing and Being Curious. The children may also be given opportunities to use maths in other curriculum areas. We will have a maths collective worship in the afternoon where I will share the opportunity to take part in a maths competition. After school, I would like to invite you to come to the Y5 classroom where I will share ways in which you can support your child with maths at home.

Mrs Williams
