

*Badger Class – Summer2
Pre Learning Task*

We are looking at Under the Sea this half of term.

Can you make a model of a sea creature? You could use play dough, a paper plate or bowl, cardboard boxes and tubes. Maybe you could make a fish, an octopus or a jellyfish with lots of tentacles! Once you have made this creature draw and write a fact about it. Bring your model and fact to school so we can share and display them.
